What is Day Surgery?

Day surgery is defined as a pre-planned surgery that allows a patient to be admitted to the hospital and discharged on the same day. In other words, the patient does not have to stay overnight at the hospital.

How do I request for Day Surgery?

1

Set an appointment

2

Meet your doctor

3

Ask your doctor if a medical procedure can be done as a Day Surgery, where hospital stay is not necessary

4

Confirm a date for the procedure

What are the benefits of Day Surgery?

Faster approval and hassle free

Planned procedure with complete submission of necessary document reduces waiting time and risk of cancellation.

Differentiated amount for identified surgery

Appropriate Pre-Authorised amount for the exact procedure. No worries on additional cost later.

Reduced exposure to hospital-borne illnesses

Shorter stay in the hospital reduces the likelihood of hospital-acquired infections

Early discharge

Return home early, avoiding stress and allowing you to focus on recovery in a familiar environment

Early mobilisation

Being mobile earlier aids faster recovery and reduces the risk of blood-related complications

Convenience

Day Surgery can be done in any Day Surgery facility and appropriate procedure room at your physician's recommendation
