Investment Strategy & Approach	<p>Investment Strategy Invest in Shariah-approved shares and Islamic debt securities through PRULink Dana Unggul and PRULink Dana Aman and in any other such PRULink Funds that may become available in the future.</p> <p>Investment Approach The Fund Managers believe their disciplined, valuation-driven investment style can generate superior long-term returns. They aim to exploit opportunities at both the asset allocation and securities selection levels through active in-house research and portfolio management, with a focus on maximization of returns at an acceptable level of risks.</p> <p>Pricing inefficiencies driven by irrational investor behavior can be successfully exploited through active in-house research and portfolio management. Successful and sustainable exploitation of security mis-pricing requires the disciplined application of their valuation-driven approach. Their process seeks to eliminate the behavioral biases that lead to mis-pricing in the first instance.</p> <p>The Fund Manager imputes conservative assumptions to their earnings forecasts to ensure that the in-house valuation target is achievable. At the same time they do not eliminate potential opportunities by taking calculated risks in periods of volatility that tend to be event driven.</p> <p>The Fund Managers aim for a high degree of consistency in long term performance for all funds, whilst adhering to strict and professional investment guidelines.</p>

Risk Management

Forecasting Risk

Potential risks are taken into consideration in the process of sector allocation and stock selection based on analysis on various key factors such as economic conditions, liquidity, qualitative and quantitative aspects of the securities.

System Control

Risk parameters are set internally for each fund, depending on client's risk profile. These risk parameters include limits of issuer bet, group issuer, sector rating and issue size of the securities held in the portfolio.

A front-end office system is in place to monitor portfolio risks, serving as an auto filter for any limitations or breaches.
