

# PRULink Golden Managed Fund

All data is as of 31 December 2018 unless otherwise stated

## Features of Fund

Investment Objective	<p>An actively managed fund that seeks to maximise returns over medium to long term, taking into account the liquidity needs of the fund to meet withdrawals as well as the need to meet guaranteed payouts. This is achieved by investing in shares and fixed interest securities through PRULink Golden Equity Fund and PRULink Golden Bond Fund and in any other PRULink Golden Funds that may become available in the future as well as directly in selected fixed interest securities, corporate bonds and fixed deposits, and any other financial instruments to be used for hedging the portfolio.</p>
Investment Strategy & Approach	<p><b>Investment Strategy</b> Invest in shares and fixed interest securities through PRULink Golden Equity Fund and PRULink Golden Bond Fund and in any other PRULink Golden Funds that may become available in the future as well as directly in selected fixed interest securities, corporate bonds and fixed deposits, and any other financial instruments to be used for hedging the portfolio.</p> <p><b>Investment Approach</b> Invest in shares and fixed interest securities through PRULink Golden Equity Fund and PRULink Golden Bond Fund and in any other PRULink Golden Funds that may become available in the future as well as directly in selected fixed interest securities, corporate bonds and fixed deposits, and any other financial instruments to be used for hedging the portfolio.</p> <p>Pricing inefficiencies driven by irrational investor behaviour can be successfully exploited through active in-house research and portfolio management. Successful and sustainable exploitation of security mis-pricing requires the disciplined application of their valuation driven approach. Their process seeks to eliminate the behavioral biases that lead to mispricing in the first instance.</p> <p>The Fund Manager imputes conservative assumptions to their earnings forecasts to ensure that the in-house valuation target is achievable. At the same time they do not eliminate potential opportunities by taking calculated risks in periods of volatility that tend to be event driven.</p> <p>The Fund Managers aim for a high degree of consistency in long term performance for all funds, whilst adhering to strict and professional investment guidelines.</p>
Asset Allocation	<p>The Fund invests between 70%-90% of the Fund's NAV in fixed interest securities, corporate bonds and fixed deposits directly or indirectly through any PRULink Golden Bond Fund or any other PRULink Golden Funds, which invests in fixed income securities, corporate bonds and fixed deposits, which may become available in the future. The Fund also invests between 10%-30% of the Fund's NAV in shares directly or indirectly through PRULink Golden Equity Fund or any other PRULink Golden Funds, which invests in shares, that may become available in the</p>

## Risk Management

### Forecasting Risk

Potential risks are taken into consideration in the process of sector allocation and stock selection based on analysis on various key factors such as economic conditions, liquidity, qualitative and quantitative aspects of the securities.

### System Control

Risk parameters are set internally for each fund, depending on client's risk profile. These risk parameters include limits of issuer bet, group issuer, sector rating and issue size of the securities held in the portfolio.

A front-end office system is in place to monitor portfolio risks, serving as an auto filter for any limitations or breaches.
