

PRULink Golden Bond Fund

All data is as of 31 December 2024 unless otherwise stated

Features of Fund

Investment Objective	Aims to provide medium to long term accumulation of capital, taking into account the need to meet guaranteed payouts. This is achieved by investing in selected fixed interest securities, corporate bonds and fixed deposits, and any other financial instruments to be used for hedging the portfolio.
Investment Strategy & Approach	<p>Investment Strategy</p> <p>Invest in selected fixed interest securities, corporate bonds and fixed deposits directly, or indirectly through PRULink Funds or other investment funds, which invest in a portfolio of similar assets. The fund may also invest in any other financial instruments to be used for hedging the portfolio. The fund may partially invest in foreign assets in order to achieve the investment objective.</p> <p>Investment Approach</p> <p>The Fund Managers believe their disciplined, valuation-driven investment style can generate superior long-term returns. They aim to exploit opportunities at both the asset allocation and securities selection levels through active in-house research and portfolio management, with a focus on maximization of returns at an acceptable level of risks.</p> <p>The Fund Managers aim for a high degree of consistency in long term performance for all funds, whilst adhering to strict and professional investment guidelines.</p>
Asset Allocation	The Fund invests up to 100% of the Fund's NAV in fixed interest securities, corporate bonds and fixed deposits directly, or indirectly through PRULink Funds or other investment funds, which invest in a portfolio of similar assets. The balance of the Fund's NAV will be invested in liquid assets and any other financial instruments to be used for hedging the portfolio. The fund may partially invest in foreign assets in order to achieve the investment objective.

Risk Management

Forecasting Risk

Potential risks are taken into consideration in the process of sector allocation and stock selection based on analysis on various key factors such as economic conditions, liquidity, qualitative and quantitative aspects of the securities.

System Control

PRULink Golden Bond Fund

All data is as of 31 December 2024 unless otherwise stated

Risk parameters are set internally for each fund, depending on client's risk profile. These risk parameters include limits of issuer bet, group issuer, sector rating and issue size of the securities held in the portfolio.

A front-end office system is in place to monitor portfolio risks, serving as an auto filter for any limitations or breaches.
