

# PRULink Dana Unggul

All data is as of 31 December 2024 unless otherwise stated

## Features of Fund

Investment Objective	To maximise returns over medium to long term by investing in high quality Shariah-approved shares listed on Bursa Malaysia.
Investment Strategy & Approach	<p><b>Investment Strategy</b> Invests principally in a diversified portfolio of Shariah-approved equities and equity-related securities that are undervalued and have good growth potential.</p> <p><b>Investment Approach</b> The Fund Managers believe their disciplined, valuation-driven investment style can generate superior long-term returns.</p> <p>Pricing inefficiencies driven by irrational investor behavior can be successfully exploited through active in-house research and portfolio management. Successful and sustainable exploitation of security mis-pricing requires the disciplined application of their valuation-driven approach. Their process seeks to eliminate the behavioral biases that lead to mis-pricing in the first instance.</p> <p>The Fund Manager imputes conservative assumptions to their earnings forecasts to ensure that the in-house valuation target is achievable. At the same time they do not eliminate potential opportunities by taking calculated risks in periods of volatility that tend to be event driven.</p> <p>The Fund Managers aim for a high degree of consistency in long term performance for all funds, whilst adhering to strict and professional investment guidelines.</p>
Asset Allocation	The Fund invests up to 100% of the Fund's NAV in high quality Shariah-approved shares listed on Bursa Malaysia. The balance of the Fund's NAV will be invested in Shariah compliant liquid assets.
Performance Benchmark	FTSE-Bursa Malaysia Emas Shariah Index (FBMSHA)  <i>For more information on benchmark kindly refer to <a href="http://www.bursamalaysia.com/market">www.bursamalaysia.com/market</a></i>
Fund Manager	Eastspring Al-Wara' Investments Berhad (860682-K)

## PRULink Dana Unggul

All data is as of 31 December 2024 unless otherwise stated

*Sources: Lipper IM and Bloomberg, 31 December 2024*

Notice: Past performance is not an indication of its future performance. This is strictly the performance of the investment/underlying funds, and not the returns earned on the actual premiums paid of the investment-linked insurance product.

Basis of calculation of past performance:

$$= \left( \frac{\text{Net Asset Value for Year } n}{\text{Net Asset Value for Year } n - 1} - 1 \right) \%$$

### Investment Risks

Please refer to the Appendix 2 for the detailed Investment Risks listing below by order of importance:

- (A) Market Risk
- (B) Stock Risk
- (C) Reclassification of Shariah Status Risk
- (D) Liquidity Risk
- (E) Interest Rate Risk
- (F) Country Risk
- (G) Risk of Non-Compliance
- (H) Concentration Risk
- (I) Management Company Risk
- (J) Inflation Risk
- (K) Investment Managers' Risk

### Risk Management

#### Forecasting Risk

Potential risks are taken into consideration in the process of sector allocation and stock selection based on analysis on various key factors such as economic conditions, liquidity, qualitative and quantitative aspects of the securities.

#### System Control

Risk parameters are set internally for each fund, depending on client's risk profile. These risk parameters include limits of issuer bet, group issuer, sector rating and issue size of the securities held in the portfolio.

A front-end office system is in place to monitor portfolio risks, serving as an auto filter for any limitations or breaches.
